Young Camp and Philbin were expected to report for the baseball squad in the spring, but have decided to row instead. Young Camp's father was one of Yale's greatest baseball players, and Philbin's brother Stephen is capitain and catcher of the Yale nine. Bomelster recently broke the strength test record for his class in the university gymnasium.

For a racing association that practically began its existence last fall, the Florida Live Stock Association is a big thing to the men of the winter turf circle. In the spring of 1909 this association was organized and held a small meeting, but what it accomplished was merely the foundation for the meeting this winter.

Ideal Place.

That Jacksonville is destined to be the Mecca of racing men in the future all who are attending the sport here this year agree. They say that if the antibetting bill, which was passed at the last session of the Legislature, but which will not become operative until late in the spring of 1911, is amended or wiped out next year so as to permit a certainty regarding future improvements contemplated by the club, then Moncrief Park will be one of the finest winter tracks in the country.

CURES

Removing the outward symptoms is not all that is necessary to cure Contagious Blood Poison. The virulent germs which produce these external manifestations must be completely driven from the blood before a real cure can be effected. The least taint left in the circulation will sooner or later cause a fresh outbreak of the trouble, with all its hideous symptoms of ulcerated mouth and throat, copper-colored spots, falling hair, sores and ulcers, etc. Only a blood purifier can cure Contagious Blood Poison. Medicines which merely check the symptoms for a time, because of their strong mineral nature, and leave the poison smouldering in the system, have brought disappointment to thousands. The disease always returns after such treatment. S.S.S. cures Contagious Blood Poison and cures it perman ntly. It goes into the blood, and removes every particle of the poison, making the circulation pure, rich and healthy, nor does S.S.S. leave the slightest trace of the disease for future outbreaks. S.S.S. does not contain any mineral ingredient, but is made entirely of roots, herbs and barks, which are most valuable in their blood purifying properties, and at the same time specifically adapted to Some thirteen years ago Ten Eyck, then a mere boy, went to England and won the famous diamend sculls at the Henley regatta.
